PROJECTS

Essentia (Python, HTML/CSS, Flask, PSQL, Figma, Bootstrap)   Tech Treks, NYU
- Collaborative project with 3 members from competitive tech cohort to create an interface in which a user can log their books/music and in return, it'll generate a recommendation of music based on their books and vice versa
- Used python, flask, postgres to gather data on a user's favorite books/music and display on website.
- Implemented HTML/CSS, Figma and bootstrap to design and code the required landing pages that optimizes UX/UI features

Skate Club (HTML/CSS, Javascript, Figma)
- Design and created website to share skating community within NYC highlighting the club, how to join, and the beautiful moments shared between members
- Established connection with Google Sheets API to dynamically store and organize user comments, facilitating efficient data management

GoodReads Dupe (HTML/CSS, Figma)
- Designed and implemented landing pages inspired by GoodReads along with shelves for a user's logged books

WORK EXPERIENCE

Start Lighthouse, New York, NY   Oct 2023 - present
Intern
- Designed new elements for the website to effectively showcase Start Lighthouse in a way that allows users to easily learn about the non-profit and to encourage users to donate
- Performed intensive organization of up to 1000 donated books based on quantity and language, utilizing an effective system to categorize and allocate them to multiple school libraries
- Engaged in comprehensive learning experiences and strategic planning regarding non-profit operations, drafting newsletters, and community engagement through tech and social media
- Collaborated with teachers to work with students (in Spanish and English) to during our literacy programs to support their learning

EXTRACURRICULARS

Rock Climbing Club, NYU Buenos Aires   Aug 2022 - Dec 2022
President
- Founded and developed the first rock climbing club for 50 students at NYUBA
- Executed strategic plans to facilitate engaging events for groups of <20 students weekly
- Established inclusivity by creating a safe environment for beginner climbers to be challenged
